

WELCOME TO 2020 CAMP

Welcome to Summer Camp!

This newsletter contains the information you will need to know for the week.
If you still have questions, please do not hesitate to ask.

General Information

- ☺ Camp sessions will be offered as a half day only. Sessions for the younger age group will take place in the morning and sessions for the older age group in the afternoon. Total maximum is (50) participants per session.
- ☺ Participants will be assigned in separate groups of (10) and paired with the same staff member every day.
- ☺ Campers will stay with their group of (10) for the duration of the week and move through our different activity areas.
- ☺ Activity stations will consist of crafts, nature, games, hiking and archery (*older age group only*). Unfortunately there will be no swimming during camp this summer.
- ☺ There will be no large group games, participants will have minimal interaction with other campers outside their group of (10).
- ☺ Participants enrolled in the camp program will receive detailed information about their camp assignment and other camp specifics prior to the start date via email.
- ☺ We hold camp outside and can adapt for light rain or a passing shower. However in the event of an all-day rain, we will cancel camp for the day since we cannot maintain physical distancing under the park shelters. The **Recreation Newline** number **262-796-6700** will be updated if there is a cancellation, you can also find cancellation information on the City website [here](#)
- ☺ A filled water bottle is **required**, water fountains in the park are turned OFF. Bug spray and sunscreen are also necessities.
- ☺ Dress for the day's weather, especially the cooler days. Athletic shoes are the best footwear.
- ☺ Please be sure that any items brought to camp (water bottles, back packs etc.) are labeled with camper's name.
- ☺ Absolutely NO cell phones or electronic devices allowed during camp hours.

NOTE: If your child needs medication during camp, bring a medication request form on the first day of camp that is signed by a doctor. The camp director/supervisor administers medication from a prescription bottle ONLY. If an inhaler or Epi-pen is needed, please place it in a front pocket of the camper's backpack. A ribbon is tied on the backpack for easy identification in case it is needed.

QUESTIONS OR EMERGENCIES: Contact the Parks, Recreation & Forestry Office at (262) 796-6675.
