THIS IS A LIST OF THE MOST FREQUENTLY ASKED QUESTIONS AND ANSWERS REGARDING RAZING STRUCTURES

Q. Do I need a permit?

A. Yes.

Q. How much will a razing permit cost?

A. \$82.00 minimum plus \$.12 per square foot with \$820.00 maximum fee per building.

Q. How do I get a razing permit?

A. Applications are available at the Inspection Services Office service counter.

Q. Do I have to bring anything in to receive a permit?

A. Yes. If you are demolishing any part of a commercial building, bring in three copies of a plan of what is to be demolished and how remaining structure is to be supported. All three plans must be wet stamp sealed, dated and signed by a Wisconsin licensed architect or engineer.

Q. What about gas, water and electric utilities?

A. The person to whom the razing permit is issued is responsible for notifying all utilities in a timely manner for proper disconnection PRIOR TO START OF razing operations. **Documentation of these disconnects must be submitted with permit application.**

NOTE: Abandonment of public or private water supply systems and sewerage systems must be performed under permit by a MASTER PLUMBER.

Prior to new construction, the existing sanitary sewer lateral must be televised to insure an adequate system. A Public Works Inspection Permit must be applied for and approved from the Engineering Dept. If there are no plans for immediate rebuild, the sanitary sewer lateral must be terminated at the main. This also requires a Public Works Inspection Permit from the Engineering Dept.

Q. May I bury structure on site?

A. No. All debris, footings and foundations must be removed in their entirety and lawfully disposed of in accordance with federal, state and local law.

Q. Do I have to plant grass after razing?

A. Yes. Site must be brought to finish grade and seeded. All work must conform to applicable erosion control standards.
